# A SPOTLIGHT ON MEDTECH MANUFACTURERS

The Singapore Medtech Consortium is formed by a group of Singapore-based VCs, manufacturers and distributors. They primarily provide end-to-end manufacturing solutions in the area of in-vitro diagnostics, wearables and life science tool consumables.

The consortium offers high mix low volume manufacturing to medtech companies at competitive prices, in addition to assistance in early-stage product development, design thinking solutions and box build assembly.

**1**

Key contact  
manufacturer

**35**

Component-level  
SME manufacturers

**10**

Distributors with  
regional presence

**11**

Regulatory and  
software  
developers

Supported by **9**  
government agencies &  
local IHLs

Connections to **4**  
overseas medtech institutions and  
hubs with commercialisation networks
